lanta, Georgia conference in session at

CONVENTION SERMON.
The annual convention sermon was
preached by Rev. Lamar Stone, of Al-
bany. He spoke to a great congrega-
tion, selecting his text from Isaiah 23.
"And he was numbered with the trans-
gressors." He said we were living in
crisis today, a crisis in our social life,
and only the cross could save it, and
only the cross could save it, and only
the cross could save it.

His preaching was to spend the
time in preaching Christ and in letting
the needy go unhelped. The churches
are spending too much time in hiding
of the wounds of men and not enough
in protecting the poor and the needy.
The trouble with the churches is that
they are not militant enough.

CANDLER TO TAKE PART IN RAILROAD VALUATION

Chairman of Georgia Commission Put on Committee to Represent States

Chairman C. Murphy Candler, of the Georgia railroad commission, has been appointed a member of the committee from the National Association of Railroad Commissioners to represent the interests of the state in the physical valuation of railroad property soon to be undertaken by the interstate commerce commission under act of Congress.

Chairman Candler received his appointment Wednesday from Lawrence C. Frost, president of the National Association of Railroad Commissioners, and he has accepted. Mr. Candler has been assigned to the subcommittee which will work in district No. 2 of the interstate commerce commission. This district, which has its headquarters at Chattanooga, Tenn., comprises the states of Alabama, Florida, Georgia, Tennessee, Kentucky, Mississippi, South Carolina, Tennessee, North Carolina and Virginia.

The physical valuation of railroad property is to be made under the state commerce commission organization, and it is desired that the states be represented in this work. The committee appointed by the National Association of Railroad Commissioners will cooperate with the interstate commerce commission and as far as possible its agents in the valuation of the actual value of railroad property in the various states.

On the subcommittee with Chairman Candler are Hudson R. Burr, chairman of the Florida commission, and Edwin W. Doty, chairman of the Ohio commission.

WORK AMONG FACTORY CHILDREN TO BE SHOWN

Lindale Mills Will Participate in Child Welfare Exhibit in Atlanta

The Lindale Mills, near Rome, Ga., have been the first to respond to the request for an exhibit of the work which can be done for the welfare of the factory child. The child welfare exhibit which will be shown in Atlanta December 1 to 15.

Miss Lillian Duke, who directs the work in the Lindale mills, was in the city yesterday in conference with Mrs. Frank Neely, who has charge of the committee on industrial welfare at the forthcoming exhibit.

Miss Duke began her work in the Lindale settlement as a visiting nurse. Being acquainted with the people in this way, she saw their needs and organized the "mother's club," the "club," boys' and girls' clubs; established a system of recreation for the mill children, and always with the backing of the mill officials, she has established a system of welfare work for mill women and children that has been recorded as a model in the settlement work of the south.

Miss Duke will be here during the demonstrations to answer questions and give all desired information about her methods.

Mrs. Frank Neely urged that social settlement workers in the mill districts in this part of the state communicate with her in the interest of enlarging the scope of this particular department of the child welfare exhibit, which deals particularly with recreation pleasures.

Long enough, conditions are praised, worthy which have existed in the south mill districts, have been explored north and south and though I do not claim ideal conditions everywhere, I do claim that in many mill districts wonderful welfare work is being done, and that it is the purpose of the child welfare exhibit, which deals with this and to exploit some of the good conditions in southern mill districts.

TWO BILLS ON CURRENCY WORRY SENATE LEADERS

Committee Cannot Indorse Either Measure Because of Equal Division

(By Associated Press.)

WASHINGTON, Nov. 19.—What to do with the two currency bills being considered by the two factions of the senate banking committee has been to give serious concern to senate leaders. Both bills, one representing the administration view and the other the work of the Republican committee members and Senator Hitchcock, probably will be ready for the senate before the end of this week.

As the committee's evenly divided there can be no formal report on the bills which would be sent to the floor. Neither of the new bills can be offered as a substitute with the endorsement of a majority of the committee. Both factions of the committee are anxious to obtain whatever advantage there is to be had by the senate and it probably will be agreed to return the bills without a report and submit the two new bills simultaneously to the senate.

Efforts will then be made by some of the Republican members to have the senate consider the currency bill item by item so each side will have a chance to advance its amendments and have them voted on as the reading of the bill progresses.

On Friday he will deliver an address at the Muscogee county fair in Columbus.

LABOR FEDERATION HEARS
REPORTS OF COMMITTEESHot Debate Likely Over Reso-
lution of President Berry to
Form a Labor Party

(By Associated Press.)
SEATTLE, Wash., Nov. 19.—Committee reports were in order when the Federation of Labor met today. The committee on resolutions came first on the roll call on committees, and there was a prospect that it would submit a long debate.

The endurance and energy of President Thompson have caused much comment. Yesterday he presided over the convention for eight hours, leaving the chair a dozen times to attend to the administration side of various questions. The report of the committee on adjustment, dealing with jurisdictional disputes, is a special order for this afternoon.

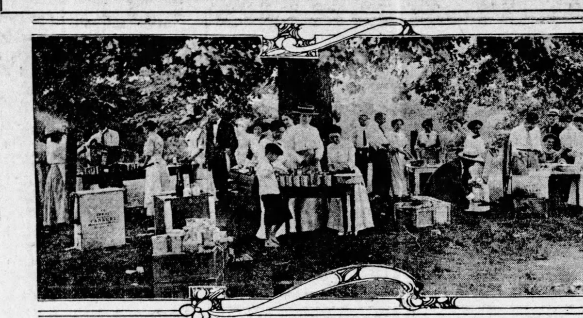

How to Overcome
a Bad ConstipationThere Is a Mild Laxative That
Will Bring Safe and Pleas-
ant Relief Over Night.

It is only natural that the simplest of ailments should be the most general, and so we have a whole nation suffering from constipation and indigestion, for they are closely allied. But common as constipation is many people do not seem to know the cause of their trouble. They will complain of headache, drowsiness or biliousness, all consequences of the cause of the trouble.

You should have a full and free movement at least once a day. If you pass a day you are constipated, and the result will be that you will catch cold, or have a more serious ailment. To cure the constipation and indigestion still graver trouble take a dose of Dr. Caldwell's Syrup Pepsin at night before retiring and by morning relief will come without disturbance from sleep or any inconvenience.

Doctors of people use it regularly in such emergencies, some of them formerly chronic invalids who had suffered from constipation all their lives. Mrs. N. Prantz, 818 Eighth St., Salem, Ohio, writes: "I have used Dr. Caldwell's Syrup Pepsin and today I am no longer troubled and eat what I like. I feel like a new man. I tell you that they have tried most things recommended for this purpose but have found Syrup Pepsin the only one always reliable. A bottle can be obtained at any drug store for fifty cents or one dollar, the latter size being

BEWARE OF CURE-ALLS,
WARNS UNCLE SAMDepartment of Agriculture Un-
covers New Tricks of Patent
Medicine Venders

(By Associated Press.)
WASHINGTON, Nov. 19.—Investigation by the department of agriculture has uncovered a new trick by patent medicine venders. As a result the department today issued a warning to the public against placing credence in advertisements which philanthropically offer to send sufferers free prescriptions that will prove panaceas for whatever ails them. In each case the department investigators discovered the principal ingredient of the cure-all prescription was some potent or proprietary drug which if the compound did not have in stock he was compelled to buy at considerable expense.

The government cannot reach these people under either the food and drug act or the postal laws, the department adds, "because the scheme is so planned as to evade government laws. The deception and misrepresentation appears in advertisements in circulars, letters, etc., separate from the package and the medicine is seldom sent through the mails."

"The best the department can do, therefore, is to warn the people to be particularly suspicious of those who send money for advertising space, postage and letter writing, seemingly for the benefit of humanity. In all of these cases there is a profit-making scheme back of the seeming philanthropy."

POLICE CHIEF'S STICK
TOO HANDSOME TO USE

(Special Dispatch to The Journal.)
DALTON, Ga., Nov. 19.—Police Chief A. E. White has a night stick he is looting for Sunday use, and if law breakers only knew it they would not fear the stick in the least, for it is far too handsome to risk carrying it on the "beat" of a criminal.

The club, handsomely polished and with a silver-silk tassel attached, came as a gift to city council with the request that it be turned over to the chief of police. The gift was made by Capt. Brown, of the police force of Salt Lake City, Utah, and secretary and treasurer of the police association of that city. Mr. Brown is an old Italian boy.

CAN DODGE GAME LAWS
THROUGH PARCEL POSTPostoffice Department Can't
Discriminate Against Acceptance
of Packages

(By Associated Press.)
WASHINGTON, Nov. 19.—Evolution of the game laws through the agency of parcel post now is possible, for Postmaster General Burleson today replied to the interposition of indignant officials of several states that congress had placed no restrictions on the department as to the acceptance of game. This condition state game wardens fear, will nullify in great measure the state laws framed for the protection of wild life.

The postmaster general pointed out that under the law the postoffice department could not discriminate in the acceptance of packages that conformed with the department's regulations. Postmasters therefore were compelled, he said, to accept game for shipment when the regulations were observed.

"This does not, however," he added, "operate against the right of any state official to proceed under such state laws against parties violating them, except that the officers of the department in the discharge of their official duties as required by law and the regulations are not to be interfered with."

Many states prohibit shipment of game from their territory with a view to putting an end to "pothunting."

THIS PROSPERITY TALK BUGABOO, SAYS BINGHAM

Inhabitants of South America
Slated for Disappointment,
He Says

(By Associated Press.)
WORCESTER, Mass., Nov. 19.—"Inhabitants of the west coast of South America are likely to be disappointed in their belief that an immense prosperity is about to come to their shores," said Prof. Hiram Bingham, of Yale, in speaking of the results to follow the opening of the Panama canal at the Clark university conference on Latin-America today.

"At the same time," he continued, "their ardent optimism will undoubtedly give them to greater economic efforts. The psychological effect on the business men of the United States is likely to lead them to believe that the canal has opened to them a new market in regions heretofore inaccessible. If the economic and geographic foundations exist for such an extension of trade, then the future has in store for us many wonderfully attractive features. If on the other hand, sufficient head bases do not exist, a crash is bound to follow."

"The more cautious the American manufacturer and capitalist is the less he will lose in regulation and good prospects. The opportunities on the west coast are chiefly coastal. They include the development of mines of copper, tin and nitrate, and the great riches of the Andes, are relatively of small importance."

FIREMEN TURN DOWN I. W. W. OFFER OF AID

(By Associated Press.)
LAWRENCE, Mass., Nov. 19.—Assistance and sympathetic action on the part of the Industrial Workers of the World apparently is not welcomed by the 2500 firemen who struck at the textile mills for an eight-hour day.

Michael J. Haggerty, secretary of the firemen's union, said today his organization did not want aid or sympathy, and he warned other organizations to "keep their hands off." The Industrial Workers last night offered to go out on a sympathetic strike. The mills continued in operation today, although crippled in some departments.

BLEASE DENIES HE IS OUT OF SENATE RACE

COLUMBIA, S. C., Nov. 19.—Governor Blaise denounced as a "lie," a story from Washington to the effect that he had withdrawn from the senatorial race and would seek a third term as governor. Were Tireless Workers

NEW YORK, Nov. 19.—Three names stood out conspicuously in stories of bravery told today when the Canadian Balmes, brought to port the passengers rescued from the burning Spanish steamship Balmes. Captain Juan Ruiz of the Balmes, spent practically five days without sleep while he and his men held the flames in check and guided their ship safely into the harbor of St. George, Bermuda.

Innocenzo V. Michalita, wireless operator on the Balmes, sent messages that brought the Balmes. Since there was only one other man aboard who understood English, Michalita was obliged to be on duty without rest to translate the messages received from the rescuing ship.

Nicholas Nicolas, a mechanic from the Canary Islands, was the man who led the men passengers from the blazing hold of the Balmes last Thursday after the crew was exhausted and ready to give up the fight.

The passengers from the Balmes—eighty-one men and thirty-two women and children—came from Cuba and were bound for ports in Spain. None of them seemed the worse for their experience.

STOP CATARRH

Unless Properly Treated With Hymel This Disease May Become Serious

If you have catarrh, usually indicated by sniffing, stopped up head, drooping in throat, watery eyes, and morning coughing, there is an irritation of the mucous membrane which affords an ideal condition for the growth of disease germs, especially those of consumption. Do not allow the dangerous germ which may be breathed into the throat and lungs to begin their work of destruction. The earliest, simplest, quickest, surest and cheapest way to check catarrh is by the direct method, breathing Hymel. This wonderful medicated air treatment does not dry and denature the stomach, but is breathed through the Hymel inhaler, directly following and surely destroying all disease germs that may have been inhaled—kills and vitalizes the tissues of the throat, nose and lungs so as to effectively render catarrh infection no longer possible. The unusual way in which Hymel is sold is the best evidence of confidence in the treatment, and dispels all doubts as to its curative properties. Money refunded to anyone whom Hymel fails to benefit. A complete outfit, including inhaler and bottle of liquid, costs but \$1.50. Extra bottles of liquid, if later needed, 50 cents. Druggists everywhere sell Hymel.—(Adv.)

Old Dr. Stork, on Rapid Wing, Beats Southern's Fast Train Into Atlanta

The speed of the Southern railway's new train, the Royal Palm, was not enough to get ahead of old Dr. Stork Wednesday morning. While the big train sped through the night and struck the miles between itself and Atlanta, the old bird went on and at 3 o'clock Wednesday morning he delivered a daughter to Mr. W. S. Register, of Jacksonville, Fla. Mrs. Register and her husband, a traveling salesman, were passengers on the train from that city. Conductors and ticket takers and baggage men were pressed into service by Mr. Register and were kept busy at one end and another until the train arrived in Atlanta at 6:10 o'clock. The conductor flashed a message ahead to have an ambulance meet the train and when it rolled into the Terminal station, there was the ambulance of H. M. Patterson & Son. "Claude N. McKee, the ambulance attendant, took charge of the situation as physician pro tempore, and Mrs. Register and her new little daughter soon were in the Atlanta hospital under care of Dr. T. H. Hancock. The statement was given out later in the morning that both were doing well.

TWO MOTOR CARS HERE TO AID MAIL DELIVERY

Machines Will Be of Great Service in Handling Holiday Rush

Two brand new motor cars for mail delivery arrived at the postoffice Tuesday and are in operation. The machines are of twenty-horsepower each, and are capable of a speed of forty miles an hour. They have three wheels.

These machines were obtained by Postmaster General Clegg from local contributions to the department at Washington, and they will greatly facilitate deliveries, particularly since the busy holiday season is approaching.

In connection with the Christmas season, Mr. Jones has issued the following instructions in the matter of mailing Christmas packages:

Parcels should be securely packed and wrapped. Umbrellas, canes, fishing rods and similar articles should be fastened between boards slightly longer and wider than the articles. Hat boxes should be crated in wood and not placed in boxes of wood, tin or heavy corrugated cardboard. Candles should be boxed the same way. Sharp instruments or articles with sharp corners or broken should have the points and edges well protected. All articles, mailed broken should be carefully packed and marked conspicuously "Fragile".

LEAVE ADDRESS CLEAR.

Parcels sealed or otherwise closed against inspection are subject to immediate postoffice. "Merry Christmas" and "Happy New Year" and "Please don't open until Christmas" may be placed on a parcel, but must not interfere with the address. The name and address of the sender must be placed on the outside of the parcel. The left-hand upper corner is designated as the place for the address, while the right-hand lower corner has been designated as the most desirable place for the address.

"Christmas stamps or other stamps, except postage stamps, placed on the address side of a parcel make the package unmailable. Do not use Red Cross or Christmas stamps so as to mail the parcel. Parcels for New York, Boston or Chicago should be mailed not later than December 26. If a parcel has to travel will indicate the latest possible date. Its mailing date is 10 cents to insure a parcel valued at \$10, and 10 cents to insure a parcel valued at \$20. To prevent delay and congestion at the postoffice and taken home to be mailed out. Valuable articles of the class rate should be insured. A return receipt for insured parcels is registered letters can be had upon application.

"Mailable merchandise sent by parcel post is of very important consideration in the world, but parcels for foreign destination should be presented for mailing at the main office. The weight limit is eleven pounds and dimensions must not exceed three and a half feet in length, or six feet in length and girth combined."

PLANS COMPLETED FOR OLD MAIDS' CONVENTION

Entertainment Will Be Given for Benefit of Mineral Bluff School

Preparations are practically completed for "The Old Maids' Convention," which will be held under the direction of Mrs. Georgia Duncan Browder at the Atlanta theater next Monday evening.

The unique entertainment is to be given by several Atlanta ladies, who are working in the interest of the Industrial School for Girls at Mineral Bluff in Fannin county, in the heart of the north Georgia mountains.

The women of the north Georgia mountain region who come from probably the poorest Anglo-Saxon strain to be found on this continent, have long been handicapped because their proverbial poverty has prevented their receiving even the rudiments of an education.

The Mineral Bluff school has already done great good, but it can now care for only a small percentage of the girls who are anxious to make any personal sacrifice to obtain an elementary education. As a result the Atlanta ladies who founded the institution are endeavoring through "The Old Maids' Convention" and similar entertainments, to obtain sufficient funds to enlarge the dormitory and other school building that more girls may be accommodated.

Tickets for the convention are on sale at the Elkin Drug company and Brown & Allen's drug store.

TUBERCULOSIS SUNDAY PLANS TO BE DISCUSSED

Mrs. H. H. Hale, of 531 North Boulevard, chairman of the committee, which will have charge of the plans for the celebration of Tuberculosis Sunday in the churches and Sunday schools of the state, has called an important meeting of the committee to be held in the ladies' parlor of the Piedmont hotel Tuesday afternoon, November 19, at 3:30 o'clock.

Mrs. Hale requests that two or more young ladies from each of the Sunday schools of the city attend this meeting. There has been no opportunity to give them notice, and it is desired that they carry a message to their Sunday schools next Sunday to appropriate celebration of the day.

FORREST—Vanderbilt.

LYRIC—"The Shepherd of the Hills."

ELGIN—"Hearts of the Blue Ridge."

"The Trail of the Lonesome Pine" will open a four night engagement at the Atlanta tonight. This play is being given by a fine cast with Isabelle Lowe in the role of June. Miss Lowe was seen here last in "A Dawn of Tomorrow" which made a sensational success.

The play, of course, is the Eugene Walter dramatization of John Ford's famous book, and has been received here and elsewhere with sincere enthusiasm. The present engagement of four nights was arranged in response to a demand for the play by the public and it is believed it will attract hundreds at each performance.

The advance sale has been highly satisfactory. A matinee will be played Saturday afternoon.

A banner week is being registered at the Forsyth theater this week with its vaudeville show, headed by Charlie Chaplin, Anna Chance and company. This act has been seen on the vaudeville stage here before, but was never a bigger hit than now.

The Six American Dancers have a classy act. Bert Borel is an English female impersonator, one of the best ever seen here.

The Three Keatons, that famous fun family, who have not been seen here several years, are just as funny as they ever were.

Conley and Webb have a great variety act. Conley is about the best trick pianist yet seen here, and Miss Webb an exceptionally pretty young lady, who wears some beautiful gowns.

Walter James is a real comedian, of the Nat. Wills order, and succeeded in registering almost as large a hit as that individual did when seen here.

The Three Jaxon Sisters, who open the show, have a novelty musical and dancing act. This show is attracting the largest attendance of the season this week, and the late coming will be greeted with the "S. R. O." sign for the remaining performances.

A play of intense human interest, an unusually clever company, and a scene production complete in every detail, are some of the features making this

The thirteenth week of the Jewel Kelly company's engagement at the Bijou started out in splendid style yesterday at that theater and the succeeding performances should draw splendid audiences to the popular Marietta street house. Hal Red's popular play, "Hearts of the Blue Ridge," is proving one of the best offerings of the stock company. There will be matinees daily at 2:30, and night performances at 8:30.

"He Told Me a Lie," Declares Physician After Shooting Man

KANSAS CITY, Nov. 18.—"I killed him and I am willing to suffer the penalty," was all the explanation Dr. William T. Elam, of St. Joseph, would give today for having shot W. Putnam Cramer, a Chicago solicitor, in a local hotel yesterday.

At the inquest today it developed Dr. Elam had employed a detective to shadow his wife and Cramer. The officer said he had assured Elam that relations between his wife and Cramer had been only a "harmless flirtation."

After the shooting yesterday Dr. Elam led his friends to the room, examined Cramer's body in a professional manner, pronounced him dead, then exclaimed: "He lied to me and I killed him."

The world-wide standard Baking Powder

Absolutely Pure

Royal Baking Powder is the embodiment of all the excellence possible to be attained in the highest class baking powder and its use is more economical than other leavening agents, because of the superlative quality and absolute wholesomeness of the food it makes.

Cheap baking powders, containing alum, are frequently distributed from door to door, or advertised as pure and wholesome. Such mixtures are not desirable for food ingredients. Most persons have learned to their sorrow that a low price does not always mean economy. This is especially so in a food article. No baking powder can properly be substituted for Royal.

Read the ingredient clause upon the label. If it does not show "Cream of Tartar," don't buy the powder.

Take Long Looks Ahead.
BY JOHN M. ORKIN.

It is from a story of the late Robert Barr that I take what is quoted here: "If I am asked whether the scheme will produce a fortune within six months or a year, I am forced to admit there is little chance of it. An American wishes to turn over his money quickly; a long look into futurity is

on Monday, another on Tuesday, another on Wednesday, and the stock rose. I was not to be outdone, and I took my profit, and rake in the boodle on Friday. I do not need to say that it was an Englishman who was supposed to be the head of the fraud. I am not certain the English idea of our financial methods.

On the same day that I read Burroughs' story I heard the complaint of an Englishman who had been told that the stock of one of our railroads had fallen. He wanted to know why he had not received any dividends on the stock and the answer was, we use not such a method of doing business. The stock had fallen in price since he bought it.

Now, this man, supposing him to be a real investor, must have known that the common stock of the road had fallen in price since he bought it.

Hundreds of millions of dollars worth of such stock is being held by Americans—and they are not all men of wealth, either. Other hundreds of millions are invested in real properties, which returns practically nothing on the investment beyond taxes, and you can't pull it out. And there's a lot of

No, the average American investor is not used to waiting for his profit. It is really the typical English investor who is impatient of the future. He is either the sort who must have his 4 per cent right on the dot every interest day, or the wildest financial gambler known.

It is time to give the patient American investor his due.

Atlanta Has Enjoyed Unprecedented Year of Athletic Events

HANK'S THIRTIETH DAY--HE'S THERE WHEN IT COMES TO WRITING MESSAGES

--BY FARREN

THE SPOOKLIGHT IN THE SQUARED CIRCLE

BY GRANTLAND RICE

We offer the prediction for what it may be worth that by Saturday's low descending dusk Harvard will be registered again as football champions of the east. But only after one of the toughest battles ever staged in a gridiron setting of Crimson and Blue, for Yale has come back again to old-fashioned ways with a rapier in one hand and a bludgeon in the other, ready for war.

Yale has swung back as only Yale, in desperation, can; but we still believe that Harvard carries a sufficient combination of speed, power, versatility, trickery and Mahan to scramble to the top of the eastern gridiron crest. And in expounding this dope we are giving Yale credit for playing a much better all-around game against Princeton than Harvard did, especially in the way of a mighty defense.

THE DOPE COMBINATION.

Baseball dope may be teeming with kinks, but football dope is woolly and matted. Harvard certainly failed to outplay Princeton some time back, and obtained a victory Yale outplayed Princeton by a healthy margin, and only got a draw. Princeton drew five fair shots at Harvard's goal, and failed to put one over. Princeton drew but one fair shot at Yale, and Baker thumped this lone chance across. But where Princeton bothered and harassed Harvard for quite a spell, Yale had Princeton stopped at every turn, covered and completely checked.

So, by this comparison Yale should look better than Harvard next Saturday, but despite this we still believe that Harvard has too great an edge on Yale in the way of versatile attack from Brickley and Mahan to be upset, unless the battle is fought upon a muddy field, where anything may happen.

MINUS AN ATTACK.

Both Yale and Princeton displayed fine defensive strength, especially Yale, but neither has to show anything which even resembles an attack against stiff competition.

Princeton, in her three big games against Dartmouth, Harvard and Yale, scored exactly one lone field goal, and that from the forty-three yard mark. She made but one threatening scoring gesture for a touchdown, and that was against Harvard in the first quarter.

Against Yale she had nothing to gain ground with and Yale had little more. Yale, through a fumble and one tidy run, swept the oval to Princeton's five-yard line. Three smashes in succession netted exactly a total of three yards, one yard to each smash. Princeton, in danger, fought valiantly, and Yale had nothing to meet her defense. It was merely a case of two fine defensive elements meeting without any versatile attack. Harvard carries this versatility of attack, and therefore looms, via the dope, the more dangerous team.

YALE'S UPLIFT.

Yale, within ten days, has come forward like a Sisyphus of old. She has fine material, and there is no reason why she should have dropped her back so far. But she has returned again with enough stuff to give her ancient enemy a real combat, and one that Harvard must sweep her best to win. If Yale keeps on coming, Harvard will need Brickley worse than he has needed him for some time, with Mahan at top speed all the way.

Yale only drew a tie from the Tiger, but one short shift in the back of the day would have put the Bulldogs on top by a healthy margin. In the third quarter a forward pass, beautifully worked, sailed over Princeton's goal into the arms of a Blue end, only to be bound out. Princeton's defense didn't stop this play. It was merely a regulation 30 to 1 shot out of a pipe chase. And Guernsey had another goal shown wide by a foot or so that started straight for victory.

YALE VS. HARVARD.

Yale showed the finest end play seen this season; she snowed an unbroken line of forwards, a great quarterback in Wilson and two good kickers in Knowles and Guernsey. But Yale failed to show an attack which should border Harvard's rushing machine. It is merely a question as to whether Yale's rushing defense can break up Harvard's running game, and if it fails it happens it will be nothing but a field goal battle between Brickley and Guernsey. Guernsey is very good, but we doubt whether or not he is quite a Brickley.

It should be well worth while to see that clash between Yale's very fine defense and Harvard's attack at its best. Yale was able to cover Hobe Baker, but covering Brickley and Mahan is likely to be something else again. Yale carries good physical power, but so does Harvard, and the tireless Wilson will find it much harder to elude Hardwick and O'Brien than he found it to elude Hammond and Lambertson.

THE KICKING GAME.

Outside of field goal work, Yale should have the edge on Harvard in the kicking game. Knowles and Guernsey are both good punters, and Wilson is one of the greatest backs of the year at handling and returning a punt. Mahan and Hardwick must be in top form to compete with the Blue pair, and Logan isn't nearly so dangerous a man as Wilson.

It was here alone that Princeton held her own.

SLIPPING IT TO LAW.

Of all who battled for Nassau, Law deserves the finest crown of laurels. With a core-stilled hand and a head around his badly gashed knob, this young Tiger drove Yale back time after time with a series of long, deftly placed punts that rarely varied in their deadly accuracy. His center had him playing shortstop and center field, diving in the dirt and reaching over his head for weird and woolly punts, but he always came through in the right way.

Baker was covered too well by Yale's fine ends to produce, and the bulk of it was up to Law. And it was a Law that Yale couldn't break.

If Harvard upsets Yale Saturday, the Crimson team must be rated first in the east. The Navy is still unbeaten, but the Navy was for some reason unable to meet any of the ranking eastern teams except the Army, and a team that failed to meet one center from Harvard, Yale, Princeton, Dartmouth, Pennsylvania or Carleton can hardly be placed first.

If Harvard loses, there will be no one championship squad for eastern football, but it will be well to believe in the possibility of a Yale team, the best ever seen this side of the towering Alleghenies. The Indians belong as close to the top as one can get, and not altogether the other way.

IN THE SQUARED CIRCLE

Gossip of the Hopes and Near Hopes

Boer Rodel, the South African boxer, who, by the way, is a regular Anglo-Saxon, boosted his stock as a first class heavyweight, by holding Jess Willard to a draw in Milwaukee on Monday night. The fight possessed no outstanding features, according to meager press dispatches, but was just an ordinary fight, even more all the way.

The Boer was knocked out by Gusnot Smith in one of his first appearances in New York and later beaten by that sterling has-been, Jim Flynn, but the Boer along with his manager, the gentlemanly Jimmy Johnson, has come to realize it takes experience probably more than anything else to make a good boxer. So Rodel is getting down hard at work to fashion himself into a first class man. And if he sticks at it this South African in a few months more will be one of the leading boxers.

Rodel possesses a unique history. He was, after the war, best upon education in England, a star football player and a mighty heavyweight boxer over on the other side. He is still a boy, twenty-four years of age, a native of Johannesburg, South Africa.

When he was fifteen years of age Rodel stole away from home and after some difficulty enlisted for the Boer war. After the war he went upon education in England, a star football player and a mighty heavyweight boxer over on the other side. He is still a boy, twenty-four years of age, a native of Johannesburg, South Africa.

Mr. W. T. Gentry Offers Cup as First Prize in Second Newspaper Golf Event

Mr. W. T. Gentry, president of the Southern Bell Telephone company, became so interested in the newspaper men's golf tournament just finished on the Athletic club's course at East Lake that he announces he will follow Mr. George Adair's example and give a cup himself as first prize in a second tournament of the same general character.

The idea of a tournament for members of the "Fourth estate" was conceived by Mr. Adair, and was instantly acclaimed by the newspaper men of the three Atlanta dailies, who went into the tournament with the keenest delight and who will always cherish a warm spot in their hearts for Mr. Adair.

And they are just as keen to go into another tournament as they were in the first, so that there will be no lack of interest or entrants to contend for the W. T. Gentry trophy.

Mr. Gentry will ask a committee of newspaper men to arrange all the details.

Texas Blanks Kansas
AUSTIN, Tex., Nov. 18.—Kansas A. and M. overblinded by superior velocity and speed, was defeated here yesterday 66 to 6 by the football team of the University of Texas. The game was played in a driving rain.

Connext Thursday Jack McFarland commences a series of matches among waterweights. That night he takes on Kid Alberts, a very clever boxer, and who will give Packer some trouble. Then in the order named Packer meets Hobe Baker, Billy Griffith, Harry Brewster, Harry Trendall and possibly Jack Britton. The match with Britton is now hanging fire. A few weeks ago it was announced as settled and looked like one of the best bouts of the fall. But promoters have failed to offer sufficient inducements.

Although McFarland is meeting well, he refuses to claim the title. If he wished to claim it, he would be recognized, waterweight champion. But Packer wants a loophole to get back into the lightweight class. He knows there is more money among the little fellows.

Colored Baseball League Organized

CHICAGO, Nov. 18.—A new baseball league has been organized, and its members will be in the field next summer. The league is controlled by Chicago men, who announced that teams will be organized in Chicago, New York, Philadelphia, Detroit, Baltimore, Cleveland, St. Louis and possibly Kansas City. The new league was incorporated several days ago at Pierre, S. D., for \$50,000, under the name of the National Colored Baseball league, but its plans were not made known until last night. Headquarters will be here.

GEN. CARRANZA ENDS PARLEY WITH HALE: WILL START SOUTH

(Continued From Page 1.)

until the election and inauguration of a permanent chief executive but it would undoubtedly be a big surprise to most Mexicans as well as foreigners if General Huerta should not be instructed to continue at the head of affairs.

CONFLICTING EMOTIONS. Officials of the Huerta administration have been moved by conflicting emotions since they learned the constitutionalists had insisted that William Bayard Hale, the representative of President Wilson, should show his credentials before continuing conferences with General Carranza and his advisers.

The Huerta officials are "dashed that Carranza, as a Mexican, is still showing a tendency to reject interference and are grieved at what they interpret as indications of a failure of the rebels and the United States authorities to reach a working agreement.

So far as had been ascertained early today all of the foreign diplomats here with the exception of Nelson O'Shaughnessy, the American charge d'affaires, will attend the opening session of congress.

Mr. O'Shaughnessy will not be present and it is assumed his absence is authorized by instructions from Washington.

Says Spain Must Keep

Out of Mexican Affairs. MADRID, Nov. 19.—Spain must refrain from taking any action in connection with Mexico, declares today's *Imparcial*.

"This solution of the Mexican problem," says the newspaper, "must be left to the United States alone."

Officials Keep Silent

On Parley With Rebels WASHINGTON, Nov. 19.—While House officials made no comment today on dispatches from Nogales, telling the constitutionalists had asked William Bayard Hale for formal credentials before pursuing negotiations.

Indications were that the parties would proceed slowly and that the point of presenting formal credentials, which might be construed as an act of recognition, would be delayed until Washington had more exact assurances of the purposes of the constitutionalists.

One official described the whole situation as "nearly insupportable."

Chairman Bacon, of the senate foreign relations committee, discussed the Mexican situation with the president today but declined to comment.

Officials described the situation, so far as it concerned the foreign governments, as highly encouraging and that there was some tendency to place more stress on favorable results of diplomatic pressure than parleys with the constitutionalists.

Senator Butler, of Utah, a Republican member of the committee, conferred with the president and said he fully supported the policy of not recognizing Huerta.

U. S. Troops Prepare

For Winter on the Border TEXAS CITY, Tex., Nov. 19.—Preparations indicating that the second division of the United States army will remain here all winter were begun today. Tents were washed and repaired and stoves installed. Hundreds of conditions also began digging a sewage system to connect with the city main.

The big army city here is entirely under canvas, even the generals using the same shelter as the men, out of the purpose of the mobilization, it is said, was to produce army life under field conditions as nearly as possible.

cluded to send these warships to Mexican waters from Harbours to protect British subjects should the necessity arise. The decision was arrived at by the British foreign office after publication of general news of unsatisfactory conditions prevailing in Mexico, and of the advance of the constitutionalists in the vicinity of the Vera Cruz railway.

No special information has been received by the government here of any danger to its citizens, and it bases its change of policy on accounts telegraphed to English newspapers from American sources.

Lord Cowdry, who possesses many interests in Mexico, had a lengthy conference today at his own request with Walter H. Page, United States ambassador.

It is supposed that Lord Cowdry wished to obtain information as to how far his Mexican interests were endangered, and desired to emphasize to the American ambassador his denial that he had given financial assistance to Huerta.

Women and Children Flee

From Capital of Mexico VERACRUZ, Nov. 19.—The exodus of American citizens from Mexico City continues. Forty persons, most of them women and children, arrived here this morning by train. The fugitives report that only a few American women and children remain in the federal capital.

It is said that she had been using a laxative for several days.

Passenger Pigeons, Thought Extinct, Are Found in Michigan

(By Associated Press.) LANSING, Mich., Nov. 19.—According to a report received by the state game warden, a flock of passenger pigeons has been located in Emmet county.

It is said that the birds, which were thought extinct, were seen in a field near the town of Emmet.

Indications were that the parties would proceed slowly and that the point of presenting formal credentials, which might be construed as an act of recognition, would be delayed until Washington had more exact assurances of the purposes of the constitutionalists.

50,000 CASES OF TRACHOMA IN SOUTH

Report Read to Southern Doctors in Lexington—Many Going Blind From Disease

(By Associated Press.) LEXINGTON, Ky., Nov. 19.—There are 50,000 cases of trachoma among the mountaineers of various southern states, according to estimates presented to the Southern Medical association's convention here today by Dr. G. C. Savage, of Nashville, Tenn.

Dr. Savage declared the disease is more prevalent in the mountainous districts of Kentucky and Tennessee than in other parts of the country and is destroying the sight of people of all ages. He said that the malady had become so serious that John D. Rockefeller recently had established a fund to fight it.

The section of medicine of the association devoted two hours this morning to a symposium on trachoma and the section of surgery heard a number of papers.

At noon the association took a recess and almost the entire membership were guests of James B. Hargis at the Elmerford stock farm.

Papers on the treatment of trachoma were read by Dr. W. S. Thayer, of Baltimore; Dr. W. L. Leathers, of the University of Mississippi; Dr. C. O. Rogers, of New Orleans; Dr. H. H. Von Reiter, of Mobile, Ala.; and Dr. H. H. Shulman, of Nashville.

Before the surgical section Dr. E. Dunbar Sewell, of Chattanooga, presented a paper on "Some Interesting Surgical Cases," and Dr. H. N. Tignor, of Nashville, told of the surgical treatment of tuberculosis of the kidney.

him whether it shall now or ever be possible in American life for the course of justice to be swayed in the least by the fact of a man's color or creed. During the course of the trial one could hear on the streets of Atlanta that the Frank should be put to death because he was only a Jew and had crucified Christ.

Will the Christian element of the American people stand idly by while a young man is being put to death without his guilt being adequately proven, and at the same time allow our Saviour to be crucified once again in spirit?

In the present situation in that horrible Atlanta affair we are more to be commended than Russia in her occasional cruelty, because we are generally more enlightened and more boastful of being a Christian country.

"Let us, as Americans, interfere in Russia when the call of humanity requires, but let us not overlook the urgent demands of duty at our very doors. Russia has yielded to the influence of humanity as exerted by ourselves, together with the rest of the world. Let us not run the risk and incur the danger of the world's contempt and of the loss of our self-respect in permitting even the humblest citizen among us to be dominated without the certainty of a scrupulous regard for justice and become the victim of a so-called racial or religious prejudice that is characteristic of savagery and out of place in the midst of a civilization such as we claim and emulate."

"America should interfere in Russia when occasion warrants."

GEORGIA W. C. T. U. WILL MEET IN ATLANTA NEXT

(Special Dispatch to The Journal.) WAINWRIGHT, Ga., Nov. 19.—The state convention of the Woman's Christian Temperance union, in session here, today selected Atlanta, as next year's meeting place. The state convention will meet in Atlanta in October, 1914, the day before the opening of the national convention in that city.

Mrs. Mary Harris ARMOUR tendered her resignation as state organizer for the temperance union. Mrs. Armour, in explaining her resignation declared that she is so occupied with national temperance work that she has been unable recently to give more than two months of her time to organizing work in Georgia. A position of field secretary was created for Mrs. Armour, and she accepted with the understanding that its duties would not conflict with her national work in the interest of prohibition legislation.

A report read to the convention showed the progress of the work in which W. C. T. U. is conducting in Georgia.
